WHAT IS THE AIM OF GAP PROJECT?

The overall aim of **GAP** is to enhance the methods used by **Vocational Training Centers (VET)** to target the integration of vulnerable adults. The development of the trainees' technical and

non-technical competencies, the reduction of social and financial barriers, the improvement of self-awareness and security, the creation of a personal project, etc., are all aspects that encourage job insertion. **VET Centers** consider these characteristics as standalone objectives rather than as components of a comprehensive strategy for the insertion process. Instead of taking a holistic strategy, the aggregated approach to the trainees' demands has poor results in terms of insertion and causes the trainees and VET center to lose contact after the action.

The project aims to bring together in a global methodology the logic of global synergies for support:

- To improve the integration process for *Vocational Training Centers (VET);*
- To create synergies between *vocational training professionals*;
- To equip and improve *vocational guidance* and *job-coaching processes in VET;*
- To provide managers with tools to guide their *organisation's actions towards better integration;*
- To provide experts with a *methodological framework for supporting VET.*

WHO IS SERVED BY GAP PROJECT

All project's work packages and activities foreseen are designed to enhance the **Vocational Training Centers' processes and competences targeting** the job insertion of vulnerable people.

GAP'S CONTENT

The project is structured in **7 main work packages (WP):**

WP1: Project Management

WP2: Guidelines and Methodology

WP3: Pedagogical tools

WP4: Tools in relation to the network

WP5: Multi-device Platform

WP6: Dissemination and exploitation

WP7: Quality insurance
